Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

<sup>1</sup> A "+" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

<sup>2</sup> In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a "-99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

<sup>3</sup> A "+" following a block number indicates that the block number is repeated elsewhere in the block.

All legal boundaries and names are as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updated the base from the North American Datum of 1927 (NAD27) to the datum as of 1983 (NAD83) and made numerous updates to the base features from those depicted in 1990. The boundaries shown on this map are for the Census Bureau's statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights or ownership or entitlement. Source: U.S. Census Bureau's TIGER database (Census 2000). Projection: State-based Albers's Equal Area U.S. DEPARTMENT OF COMMERCE Economics and Statistics Administration U.S. Census Bureau

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol only and the label for the boundary. These boundaries:

- 1 A "1" following a place name indicates that the place is also a false MCD; the false MCD name is not used.
- 2 In 1990, the crews of vessels populated at sea was allocated to census tracts with a "99" prefix. An anchor symbol appeared on the 1990 maps locating a crew's vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the anchor.
- 3 A "3" following a block number indicates that the block number is repeated elsewhere in the map.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- <sup>1</sup> A "0" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- <sup>2</sup> In 1990, the crews-of-vessels population number of ships at sea was allocated to census tracts with a ".999" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- <sup>3</sup> A "\*" following a block number indicates that the block number is repeated elsewhere in the block.

The diagram illustrates various types of boundaries and features in a landscape, categorized into three main types: Highway, Secondary Road, and Jeo Tra/Workway/Ferry.

- Highway:** Represented by a solid line with a dashed line in the center. The label "Highway" is written above the line.
- Secondary Road:** Represented by a solid line with a dashed line in the center. The label "Secondary Road" is written above the line.
- Jeo Tra/Workway/Ferry:** Represented by a solid line with a dashed line in the center. The label "Jeo Tra/Workway/Ferry" is written above the line.
- Ridge/Physical Feature:** Represented by a solid line with a dashed line in the center. The label "Ridge/Physical Feature" is written above the line.
- Property/Tenure Line:** Represented by a solid line with a dashed line in the center. The label "Property/Tenure Line" is written above the line.
- Railroad:** Represented by a solid line with a dashed line in the center. The label "Railroad" is written above the line.
- Stream/Shoreline:** Represented by a solid line with a dashed line in the center. The label "Stream/Shoreline" is written above the line.
- Intermittent Stream:** Represented by a solid line with a dashed line in the center. The label "Intermittent Stream" is written above the line.
- River:** Represented by a solid line with a dashed line in the center. The label "River" is written above the line.
- Glacier:** Represented by a solid line with a dashed line in the center. The label "Glacier" is written above the line.
- Mudflat:** Represented by a solid line with a dashed line in the center. The label "Mudflat" is written above the line.
- Inset:** Represented by a solid line with a dashed line in the center. The label "Inset" is written above the line.
- Out Area:** Represented by a solid line with a dashed line in the center. The label "Out Area" is written above the line.

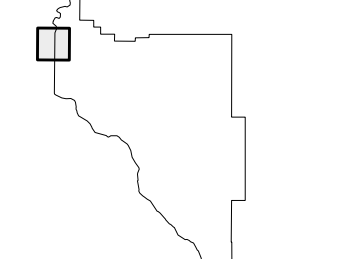

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- <sup>1</sup> A "0" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- <sup>2</sup> In 1990, the crews-of-vessels population number of ships at sea was allocated to census tracts with a ".999" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- <sup>3</sup> A "\*" following a block number indicates that the block number is repeated elsewhere in the block.
